NORWAY MUNICIPAL COURT

William F. Jones, Judge

Charles W. Sharpe of Lawrence, Mass.

was brought into court Monday by C.

D. Patton, motor police, charged with

reckless driving. He was found guilty

and settled a fine of \$15.

Complaint was made by George Davis

of South Paris, whose car had been

crowded off the cement highway into the

ditch.

Co. C, 103 Inf. Me. N. G.

Another year has passed and time for

summer camp is rapidly drawing near,

and finds the Norway Militia in excellent

condition. Without doubt in better con-

dition than it has been for many years,

both financially and physically.

Many changes have taken place in the

past year under the able leadership of

Major Twitcheall of Fore Street, who

of sterling qualities and one of consid-

erable service both foreign and home, who

by untiring efforts has built up a milita-

ry which stands second to none in

the State.

All of the undesirable members have

been weeded out and a better class of

young men have been enlisted, until the

morale and character is 100%.

The company now has 55 members and the State

Militia laws allow 100 members per

company. The young men of this com-

munity are expected to uphold the

military record and asked to uphold

the Veterans of the past, and to assist in

building an organization which will be

equal to old Co. D, 2nd Me., of which

Norway is justly proud.

Second Lt. Albert Thompson has taken

charge of the supply department and has

a supply room which for quality and

completeness of equipment is considered

by Major Goodwin, State Supply Officer,

to be as good, if not better than any in

the State. Lt. Thompson is assisted by

Supply Sgt. Philip Prince. Lt. Thomp-

son and Sgt. Prince deserve especial

credit for the soldierly appearance of

the enlisted men and this condition has

been brought about only by diligent work

on their part.

Every one is looking forward with a

great deal of pleasure to the summer

camping season at Camp Greenleaf.

Frederick's speed boat took 27 min-

utes in going 9 miles. Time reckoned from

the first turn of the propeller in the

Greenville boat house and when we stepped

on Van's pier.

Capt. Sawyer has two fliers: one travels

through the water and the other over the

water. We were had the former, and it

cut through the water motionless regard-

less of rolling waves.

Dr. Aldrich was "paddled" by Doc

Smith of Greenville, commonly known as

"Old Doc Smith," the seventh son of a

seventh son-sire. He was born in Chesun-

cook, Maine, some time in the fifties and

who are all living. The youngest is 14.

"Doc" was restless in a canoe and kept

it rolling in the long waits between net-

ting fish.

The "stump" and Thorfare Point

were out of data for fish, also "Harrow

Box." North-west coast failed to re-

spond. Caribou Point was in its prime

and there we spent our time and took

from one to half a dozen good ones

every day.

Many trollers were dragging the

grounds with fair success but in compar-

ison with the energy expended got less

fish than the fly casters. This is the

score:

June 30-9 fish.

Neighborly Advice

Freely Given by a Norway Citizen.

When one has suffered tortures from a bad back and found relief from the aches and pains, that person's advice is of untold value to friends and neighbors. The following neighborly advice comes from a Norway resident.

M. W. Sampson, Prop. boat transportation business, 19 Bridge St., Norway, says: "A cold settled on my kidneys and brought on attacks of backache. I was lame and unable to move any way, the pain in my back was so severe. My kidneys didn't act right and I had dizzy spells. A friend who had used Doan's Pills with good results advised me to try them, so I went to Stone's Drug Store and got three boxes. After I had finished taking them, the trouble left and I have been free from kidney disorder since."

Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Pills—the same that Mr. Sampson had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

THE NAME OF JESUS

(Composed by Mrs. Flora C. Ellingwood of West Paris in the fall of 1923. Sung to the tune of "Webb.")

I love the name of Jesus,
He is my dear friend;
I love the name of Jesus,
On Him I can depend;
For He is my companion,
My counselor and guide,
For He has promised ever,
To keep me by His side.

I love the name of Jesus,
Because His word is true,
I love the name of Jesus,
Because it's always new;
For promise after promise
Is given in His word,
And through His love unmeasured
My sinful heart was stirred.

I love the name of Jesus,
Who keeps me day by day;
I love the name of Jesus,
Who leads me all the way;
And merciful I see;
The precious name of Jesus
Is everything to me.

I love the name of Jesus,
I came to Him for rest;
I love the name of Jesus,
I have the name of Jesus,
And I leave upon His breast;
For my Saviour, Lord and friend,
And in His word He's promised
To keep me to the end.

VICTORIES that build Firestone LEADERSHIP

Firestone Leads on Speedway with Five Record Breakers

When the race driver selects his tires he does so realizing that his life and chances for success depend upon them. It is significant that all of the Firestone shod, Firestone, using gum-dipping and other special processes, has developed tires to such a high degree of efficiency that at Indianapolis, May 30th, the following drivers broke the world's record for 500 miles over this brick track making many rounds at over 100 miles per hour. Never before were tires put to such gruelling service, where it was necessary for every ounce of rubber and every fibre of fabric to work in perfect unison with every other part.

Driver	Time	Miles per hour
Joe Boyer—L. L. Corum	5:05:28.51	98.24
Earl Cooper	5:06:47.18	97.99
Jimmy Murphy	5:08:26.39	97.37
Harry Hartz	5:10:44.29	96.55
Bennett Hill	5:11:07.00	96.46

Leadership in Everyday Service
Millions of motorists are profiting by the lengthened service of Firestone tires. Scores of unrefuted testimonials emphasize the long mileage Firestone Gum-Dipped Cords deliver—which builds leadership in service, safety and economy.

Leadership on Cabs, Buses and Trucks

The largest taxicab companies in the five largest cities in the United States use Firestone Gum-Dipped Cords exclusively. One fleet alone, the Yellow Cab Co. of Chicago, uses over one-half million tire miles per day.

Firestone for years has been first to develop tires and rims complete which would meet the heavy trucking loads, great strains and demand for traction. By originating and carrying forward the Ship by Truck movement, and establishing Ship by Truck bureaus in all large cities, Firestone helped to speed up highway transportation and reduce costs.

Balloon Tire Leadership

Firestone's latest contribution to motoring is the low air pressure or Balloon Tire. This, the original full-size Balloon, was made practical by the special Firestone Gum-Dipping process, insulating every fibre of each cord, adding great strength and stamina. Firestone has also simplified the application of full-size Balloon tires to your present car by designing a special unit consisting of tires, tubes, rims and spokes applied by any dealer at a very low cost.

Leadership Against British Rubber Restriction Act

Attacking the unsound and uneconomic character of the exportation of rubber from the Far East, Firestone was the one large tire manufacturer to take up the cause for the car owner. Soon after the agitation was started for America to produce rubber under its own control, the cost of crude rubber was reduced and tire prices brought back to normal.

Dealer Leadership Through Tire Quality and Service

Through Firestone dealers you can obtain organized service and the soundest values on the market, whether you need a Ford 80 x 3 1/2 Fabric, a set of full-size Balloon Gum-Dipped Cords or a 10-inch truck tire.

RADIO CURING CRIME

Radio keeps many potentially bad boys good. The number of juvenile court cases in America dropped almost 49 per cent. in the past year. Radio deserves a large portion of the credit.

It diverts youthful energy into placid channels.

Crime, after all, is to considerable extent just a matter of misdirected energy. Groupings as well as children. Many professional criminals would become good citizens if shown that they'd make more money if they'd apply to legitimate work the energy, time, brains and scheming they devote to trying to get something for nothing.

THE KINGDOM OF GOD cometh not with observation: Neither shall they say, Lo here! or, Lo there! for, behold, the kingdom of God is within you.—Luke 17:20, 21.

THE WORK OF RIGHTEOUSNESS shall be peace; and the effect of righteousness, quietness and assurance forever. And my people shall dwell in a peaceable habitation, and in sure dwellings and in quiet resting places.—Isaiah 32:17, 18.

THUS SAITH THE LORD that created thee, O Jacob, and he that formed thee, O Israel. Fear not: for I have redeemed thee; I have called thee by thy name: thou art mine. Fear not, I say, because I have said, I will surely do it. TAKE NO THOUGHT saying, What shall we eat? or, What shall we drink? or, Where shall we be clothed? But seek ye first the kingdom of God, and his righteousness; and all these things shall be added unto you.—Matthew 6:31, 33.

COME TO MAINE

Invite someone to Maine for the summer! Not necessarily as your own personal guest; not necessarily by means of a personal letter.

Maine business men are in excellent position, however, to extend Maine's vacation season hospitality to their business friends and acquaintances, even to people outside the State with whom they have never before corresponded, in the opinion of officials of the State of Maine Publicity Bureau. Maine needs its summer visitors and the business they bring.

It needs more than it now receives, and every business and professional man who is from time to time corresponding with outside firms, interests or individuals, is in a way to help the project through a little courteous solicitation.

Here's the answer: simple enough. The State Publicity Bureau idea is for Maine business men in sending letters to people outside the State, to have written at the bottom of the face of the envelope such an attractive message as the following: "A cordial welcome awaits you in Maine this summer."

Maine people cannot afford, if they will take the position that is logical, to lose the summer business that annually comes into the State. The State of Maine Publicity Bureau is asking Maine business men to consider whether or not the \$52,000,000 summer income that some 700,000 people yearly spend in the State is in danger of being removed, through serious competition of other states that spend many times the amount yearly to advertise their state attractions that Maine puts out for the same purpose.

In a letter to business interests just sent out, Secretary Harrie B. Coe of the Publicity Bureau points out that Maine is not alone in catering to tourist travel. The Miami, Florida, Chamber of Commerce in the past seven years has spent in advertising more than \$750,000. Other cities of Florida spend large sums annually. The Los Angeles, Calif. Chamber of Commerce last year raised and spent \$650,000 in advertising.

Maine Publicity Bureau has about \$25,000 a year to spend in competition with the large sums mentioned. The difference is apparent. It is true that not every Maine business man receives a direct invitation from summer tourist or vacationists. It is equally true that scarcely a Maine business firm experiences a year without an indirect proportion of the summer visitors' expenditures coming its way. For people owning stores, farms, hotels, or camps, or their employees will in time average to distribute some part of the money left here by summer visitors around to every corner of the State.

The opinion that may be advanced to the effect that Maine does not compete with Florida, and therefore has no need of equal advertising appropriations, is a fallacy, Secretary Coe emphasizes. Only a few people go to both Maine in the summer and Florida in the winter. Most people take but one vacation a year, and thousands of that class could be brought to Maine in the summer who now go to Florida in the winter, because Florida's advertising has attracted them. Such advertising appears regularly in the popular weekly and monthly magazines, as in metropolitan daily papers.

There is no doubt that outside visitors leave \$52,000,000 a year in Maine. It has been shown by checks made by railroad and steamship officials, hotel men, State Highway Commission, Maine Automobile Association and the Publicity Bureau. Maine business men are being asked to consider if they can afford to let this income slip from their hands.

In a week's time, since the first few contingents came through, 60 or more groups of youthful boy and girl camps numbering from 30 to 150 have passed through Portland's Union Station on their way to points north and east in the Union.

These camps are sanitary and clean, healthful and free from disease breeding conditions. The State Department of Health, through its district officers, sees to that. Each camp is thoroughly inspected and frequently, its sanitary arrangements looked over, and a careful watch is kept against the appearance of infectious or contagious disease. Many of the camp directors are physicians, health officers in their home communities, or teachers who are well trained in health work. Maine camps make healthy bodies, alert minds and give well-balanced programs of instruction and play to their young patrons.

"MY VILLAGE"

(By Morrill N. Packard)

Now in Life's September

Village scenes of beauty

Social life and duty.

Happy retrospective.

Long my heart's objective

Trading erstwhile pathway

Back to dear old Norway.

Far my journey passes.

Over fate's morasses.

Past the winning battles

Through the dreamlike castles.

To my youthful dreamlands

Bringing grateful greetings.

Glad to have remembered

Each inception proven.

Kindly gifts unnumbered.

Found in Ward's endeavor,

Rich in wit and humor;

Love of stories frantic

From Cobb romantic;

Stevens youth's enchantment;

Hugh Pendexter famous

Keeping trust with genius.

Heroism ideal

Taught by General Beal,

Captain Whitmarsh gallant

Captain Noyes valiant;

Urge of law from Virgin,

Gotten whilst an archer;

Cosmos, No. 1

Caught from Seitz prevision.

Pilgrim fathers conscience,

Beautifully set forth

Typed by Doctor Danforth.

Typical of ethos

Guiding village purpose

Holding hearts to service

Lest to duty's axis.

Such the motive spirit

Grown in homes that bore it

Guardian of virtue

Source of country's sinew.

Gratitude I render

To the homes back yonder

Had the hearts of Yankee.

Gentle sprites I pray thee

Bear my greetings kindly

To the homes in Bygone

Marked by worth's escenthon.

Go and do as bidden

Find the homes of Hayden,

Howes and Harves and Joneses,

Smiths and Coles and Homeses.

Goal through village spirit.

So my garlands number

Those I well remember

Who with peace ample

Built my conscience temple.

Still my heart's objective.

Just Like City Water Service

No matter where you live, you can now have running water under pressure in your home.

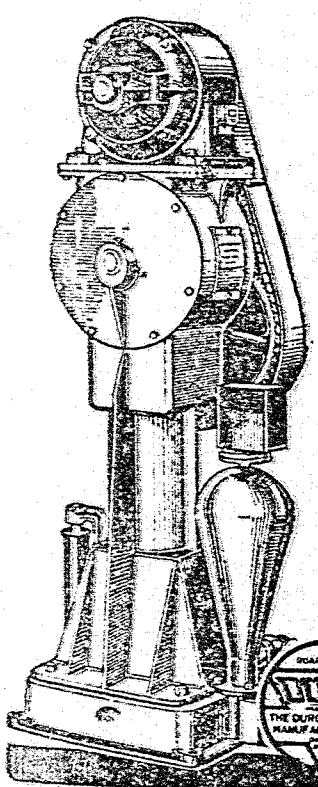

Modern plumbing, including bathroom with hot and cold water, lavatory, shower, toilet, and faucets in many convenient places—think what this means to the suburban or farm home.

With the present standards of living these conveniences are a necessity. They make for comfort, health, sanitation and labor-saving. They were formerly to be had only in the city, but now,

DURO Water Systems

"Just Like City Water Service"

will give you all the advantages of city water service. Duro Systems are built in many sizes and styles. They meet the needs of a bungalow or a country club. They are driven either by electric motor or gasoline engine.

A Duro system is worth all it costs for fire protection alone. It is easily installed in old or new homes—taking water from deep or shallow well, cistern or spring.

Ask us to point out the many reasons why Duro costs less but is worth more than any other water system you can buy.
